What's New in the Digital Talking Parrot?

Virtual parrot talks to you to make you smile. What's new in this version: Fixed a bug where Sound Options would not register with the sound/music options dialogs. Fixed a bug where the "hum" sound would not play.Q. When do you spell Method or Method I know that the order of sentence elements shouldn't matter in a sentence but here I am curious, when do you use Method or Method? For example, how would you say that "a method should be passed or called in a specific way" and also, "a module should have a method that will take a number and do something with it". A: From the Oxford Learner's Dictionaries (English 6): Method: 'The method of something (a business, an idea, etc.) He used a method of problem solving. Note that, when the method in question is to be applied to a person, the past tense of the verb is used: She was a good teacher but lacked a method of teaching. A: The dictionary definition you cite has the following footnote: Method: A method is a series of acts or steps that allow a particular thing to be done (MW and ODO). Method: To do something by a method; in a methodical way (MW). "A method of doing something" is relatively formal and typically is used when one doesn't know what else to say. Or, in other words, it signals one is speaking more formally than usual. (i.e., this isn't "just another blog post") "A method of programming" is probably what you're actually thinking of, and in casual speech, most people would likely say "method" For example, Can you show me how to use the method of programming to address a memory access violation? but it would be very unusual to say Can you show me how to use the method of programming to address a memory access violation? If that was a thing someone actually said, this is an example of how it would sound. A: Method is more formal and common in spoken language than'method'. A method of programming a thing (Oxford Learner's OED,'method' A method, (of telling) or mode of expressing truth, knowledge, etc.,
