This is a service release that comes with new features such as split screen, an out of home app, etc. However, the main focus of this release is getting rid of the freemium model and instead offer the full version for \$30. That’s pretty awesome if you ask me. In order to use the full version of BlueStacks 5, you’ll first have to download the official installer of their website. Of course, you can still use the free version. By doing this, you’ll have the freedom to use any features that you want while still enjoying the full and free download version. For all of you who are willing to

---

try out the app, here are some of the things you can do: Run native apps. Install the BlueStacks app on your Windows PC and use it on your phone. Create your own cloud-based app. Unlock new features. And much more! “We’re proud of the progress we’ve made in the past year, but we’re also excited to release BlueStacks 5 and give away more than 10,000 licenses,” said a representative. “We’re also proud to offer a new version of BlueStacks that’s completely free. Our team is building a new cloud-based app platform that will bring the platform to new users
