Link to Video >> Game "A Shawn Story" Gameplay: Link to Video >> Link to Video >> What's the aim of this game, which I'd played on the trial version, was to find enough items to complete a lift and get your man back. Eventually you'll gather items from all over the building (though if you stand on a certain floor, you won't have to go all over). Time, which can be seen on the little watch, will allow you to make it to the 5th floor, where the lift is located. Gameplay: Yeah, it was sort of like a cross between Hotel California, which needs additional elements to qualify as an FPS, and The House of the Dead, which manages to get away with the bare minimum. The game uses a series of fourth-wall breaking events that remind you the player is playing a game. For example, when Shawn is in the vehicle, he will occasionally comment about the hostile environment, about how he feels like he's going to be attacked, and about how the vehicle is very dangerous. At the same time, the player knows that he is actually in a game in a building that's devoted to showcasing video games. (When Shawn is being chased by the killer, he will comment on how he's attracted to "bad girls with tattoos and piercings." Not only is this pushy, but it's also inane because a killer who kills people in game isn't going to be attracted to prostitutes.) The protagonist might also comment about looking around, wondering why he would be in a building playing games, for example, or about being kidnapped and shot in the back. Character?: A funny thing about Shawn. He's got a high-functioning sociopath for a personality, but is somehow able to fit himself into a relationship with a woman. He doesn't bother to ask questions, and clearly doesn't learn or grow. Still, he doesn't express anger, and he is generally kind to people, even if he doesn't help anybody. He has a bit of a harem of women at his various homes. Graphics and Sound: It's a pretty good looking game, especially for a game engine. The models are all pretty good quality, and the lighting is good. The actors in the game do a good job, though at points they'll do some cringe worthy things. It's a slow game, but it's good kind of slow. You wait for some action, and you'll see some
