Grab Your Vitamins, Queue up 5-Seconds with IMDb - morgawilde ===== amichail Yes, it's better to have access to IMDb so you can access it even when you're not near your DVD player or computer. It would be useful if IMDb were integrated with Netflix. ---- amichail I'd be particularly interested in watching TV series with IMDb because it would know what episodes you're currently watching. And you could get IMDb suggestions for movies based on your IMDb history. ----- davidw IMDb.com is a pretty great service. It's easy to use, has a decent RSS feed for quick updates, and you can comment on things. Its main weakness is that it's aimed at the US market, because apparently there are just that many movies to cover with that market. ---- amichail Why is IMDb so good? ---- davidw It's good because of the stats and information - especially on what people are watching. ----- amichail Why would any site for online movie viewing

Use our search feature. Find out what you need. A: CD key search queries are not currently permitted on the main site, but they may be allowed on other sites within the network. (For instance, on the GameFAQs forums, you can search the database using the search box at the bottom of the page, "search" is the short form for it.) A quick search found this forum thread, which suggests that CD keys are only allowed to be used on their original Steam account. If you're having trouble locating your original Steam account, you can also ask the Steam Community Help page which includes an option to view your account activity. If you're having problems with an expired CD key, you can also ask the Help Center, and Steam Community Help may also be able to help. The only solution that I'm aware of for swapping a CD key is to ask the game's publisher, to send you a new CD key; although EA themselves have told me that you can then request a refund for an expired one. Q: Processing Query Into Enum Values I'm using LINQ to query an entity that has a primary key column that is defined as a Byte data type. Since there is only ever 256 possible values it can be defined as an Enum. How can I process the query so that it will return the integer value of the enumerator in addition to the enum value? This is what I have so far (from this question): var results = from t in db.Table1s where t.key == key select t.value.ToString(); I tried this: int value = (int)Enum.Parse(typeof(EnumClass), results); But that causes a System.InvalidCastException error. I also tried this: var results = from t in db.Table1s where t.key == key select new { key = t.key,
