Customization: You can combine orbs to make orbs that create orbs. Or you can mix orbs of different types to make special orbs. In fact, you can use orbs to make other orbs. Go crazy! Knife In The Dark is a 2D action-shooter about a man who becomes trapped inside of a mysterious tower with only a knife. You must survive the horrors that await you, while slashing and stabbing your way through a variety of dangerous monsters. Key Features Explore - Navigate your environment using the knife in your hand to search for platforms, keys, hidden secrets, etc. Knife - Use the knife to open doors, push boxes, trigger switches, etc. It will even cut through metal and stone. You wouldn't use the knife to swim through dangerous rapids? Well,

why would you start now? Enemies - Hunt all kinds of enemies with a variety of weapons, including spears, axes, fireballs, lasers, lasers with different power levels, etc. Use them all to your advantage. Powerups - Find powerups in the environment that offer you varying degrees of health, energy, extra supply of knives, etc. Enemies drop them if they are killed. Hidden Secrets - Not all of the objects you see in this environment are just in there to make your life harder. Some of them also provide useful items and hidden secrets. Boss Battles - Survive the final three rooms of the tower and face two powerful enemies to win the game. If you manage to get through all of that... you'll be awarded with the ending that will make your friends and family extremely happy. Local co-

op (2-4 players) - Play using your smartphone in local co-op mode with two or four people, each using a separate account, or play as one person and invite your friends to play in local co-op mode. Your friends will be able to see your progress, but no one can see their own save file or progress. They will also be able to access the same weapons that you do. PlayStation VR Support - Fully support for compatible PSVR (sold separately). PS Vita Support - Fully support for compatible PS Vita (sold separately). KiKi will have to seek the origin of the stone spire that collapsed down on Earth. He's heard of mysterious cats that search for precious stones and cats that hold precious stones, so he's fairly certain the spire is full of precious stones. After all, there are literally petrified cats all over the place. Not even humans were this hard-boiled. Can he solve this mystery? Challenge yourself in all kinds of awesomely challenging mini-games! You can build your own home for your KiKi, and even continue the story of his first adventure as you level him up. Quest for precious stones: Collect as many precious stones as you can in the vast open world of Retro Evolved. Collecting all of them will open up the world map, new creatures and upgrades. Discover

hidden characters: Discover the full game in every way imaginable. Find the hidden characters and find new stories behind them. Build your own house: Build your own house to unlock awesome in-game features. Leveling up: Level up KiKi's characters and abilities. Then choose which weapon to use, and then choose which attack patterns to use! Prove your skills in various battle modes: Prove your skills in battle with team-up or individual modes. Hide, take pictures and share: Take a picture of the beautiful scenery and share it with friends. You can also post a message to the social network and to your friends. You can also hide KiKi - the pictures will remain hidden until you unhide him! Discover new stories and details: Discover new locations

and hidden details in the vast open world. Amazing world: Use your handy-dandy puzzle-solving equipment to solve many challenging puzzles and mysteries. You can unlock cool features and new stories while you solve puzzles! Intuitive interface: The interface is so intuitive, it should be almost invisible. With just one click, you'll be able to open KiKi's inventory, turn it off or on, and even initiate a battle with your friends. 5 DIFFERENT KIKKI STYLES: KiKi is the best-looking character creator in the history of gaming! But in the world of 1920's Japan, customisation is a big thing. KiKi has some challenges before him: his hair is just too perfect and he's supposed to make his debut in the catmeets. Can he

Chapter 406: East of the Wind
Chapter 406: East of the Wind
Team Duo Jiro and Koutarou had their watches reprogrammed and changed their routes, catching up with Team Guy from within the forest before two of them made it outside, the moment the Dark Wings Company's rampart stopped them and stopped their escape. Just as Hyuga finished with Team Duo Jiro and Koutarou he felt two strikes... but these were quickly followed by a welcome weight on his back, as Kenji's midsection used his flexibility to wriggle to position his head on Hyuga's back, causing the wind to waft down Hyuga's body. "You are as lethal on the offensive as in a brawl?" Kenji's mane was curled in Hyuga's hand as Hyuga stretched his neck and body languidly. While the image of flailing wind still seemed like it could depict his surroundings, Hyuga had to admit it displayed his creativity off the mark. The aura 'Jinsei (compliment)' was what he had most wanted to dispel as soon as he saw Kenji, and that belief was reinforced from his rare use of the word 'Dao' without 'Jin (in, know)' that he had used. ".....By a large margin. But anyone who has seen me brawl around will know that I used fists." "Then you have decided to forget about using blades?" "Fighting man to man,

or even fisticuffs are fine. It is shūbu (stuck) when a fencer uses his blades.” “Then I believe the blades you use are shūbu.” Yura had said something similar: “I got to see how it had been when a faint breeze had passed by as he had been thinking of Hyuga, so he had guarded his body. Hyuga, please tell Kenji this is quite the common reaction in battle.” “You are seriously insisting it is a bad thing to use blades?” “Not about the blades. It’s fine to use non-shūbu weapons. We will not be using them.”
