Facebook: Twitter: YouTube: We are the Mods. We are the Creators. We are the Prophets. Hi, we're YoKobra. We created the game No Man's Sky. We also make Mods. We make Mods because we want to make amazing things. We play games because we love to have fun. We want people to have fun playing games and we are crazy about games. But, sometimes, fun can feel selfish. While you were having fun your friend was not playing games. That's not fun. We do a lot of things. First, we go on adventures. We go to faraway lands because we want to see them. We travel to different places, to other planets, because we want to see what else is out there. We go to battle and we go to space, just because we love to have fun. There are lots of other reasons too. We are crazy about music and we love to listen to it. We play live shows to share our music with people. We love to sing, we love to play instruments, and we also love to tell stories. Sometimes we act out our stories and then we tell more stories. We love to draw and we make comics. We love to make art and we do a lot of that. We tell stories and then we make games. Sometimes we combine them. We make stories in games and then we play games. We make games to experience our stories. We are crazy about games and we have a lot of fun playing them. It is quite a lot, everything we do. But we wouldn't be true to ourselves if we only did any one of those things. So we do them all at the same time. Our life is quite a lot. We are proud of what we do. We try to become better people and better artists. We are trying to be good at the things we do. We can be better at the things we do. We are always trying to be better. We make these videos because we want to share our life with you. We want to share our stories with you and

Introduction When I first started using Ragnarok Online, fantasy was an afterthought for me. Even after stopping playing it, every now and then I would return to the game and spend my time gathering my favorite heroes in the 'Bosom Watch', relaxing, and playing the same environment with the same people. Even occasionally I would indulge myself in creating a character, or invite random players and play a game once in a while. Last year, I decided to open an Rm and add more activities to my life. I quickly gathered a strong group of people, but we decided to play classic RWBY even after making the decision to live in the RWBY world. But after that, my fellow Rm players and I all began to play another game called Ragnarok Online 2 (RO2) and fell in love with it because of the players and classes, so we began to play the classic RO as a tribute. The journey about the classic RO has experienced many ups and downs, with a sad ending, but the classic RO won again in 2016. We could hardly forget about the RO, despite continuing to play RO2, but also the world and the game just wrapped up for us. Because of that, we came back to the RO world, so we wrote a letter and proceeded to play the classic game quietly. After 6 months of silence, we met in person to talk about the state of the game, but it

turned out that a class had been added to RO, I heard of RO already took the letter for medieval fantasy, this is the one I was avoiding all along. But then we
