Message Gamer Society, Avatar ... Call of Duty: Modern Warfare 3 System Requirements! I can not normally play due to the fact that the game goes for a long time, and lag textures, I do not know why, but I think because I am not a powerful enough computer, I have I5 and GT430 1 MB, and who has such powerful computers Maybe maybe it's about the game? The computer is not very weak, but if you know weak points in the computer, please tell me! I ask you! 6 years I do not know, I have a wonderful laptop on average. On the video card NVidia GeForce GT 630M, on the computer itself AMD Phenom II x6 10.5.
