EaseUS Todo PCTrans Free Cracked 2022 Latest Version is a useful and reliable software solution created to serve in computer migration operations, be it from one machine to another or from an earlier version of your OS to a newer one. Intuitive and approachable looks The utility is fairly simple to understand and work with thanks to the wizard-style interface, but keep in mind that you need to install it on both systems for it to work, as the transfer happens in real-time. Once launched, the main window will display the detected network PCs; however, if EaseUS Todo PCTrans Free fails to see it, you also have the options adding it manually, by clicking on the dedicated button. Effortlessly migrate data and applications between two computers After establishing the connection between the two machines, you will need to choose the transfer direction, specifically the source and the target. EaseUS Todo PCTrans Free will then analyze the total amount of information to be migrated, specifically the 'Applications' and the 'User Data'. The tool lets you select the exact folders that you wish to move by checking the corresponding boxes, as well as the destination directory on the target computer. You can then press 'Start' and EaseUS Todo PCTrans Free will commence analyzing the data, then transfer it to its new location. While 'User Data' is moved without a problem, some of the 'Applications' may require re-activation on the new system. The program can serve in backup and migration operation operations, by sparing you of the trouble of having to work with portable storage devices, letting you move everything you need directly between the machines. A handy PC migration tool In summary, EaseUS Todo PCTrans Free is an efficient and user-friendly utility that can successfully assist you in backing up your system, as well as migrating from an older computer to a newer one, saving you a lot of time and effort in the process, by doing most of the job for you. Transfers data between Windows PC's in real-time. Lose all the time and energy transferring apps? Todo PCTrans Free can perform all the data backup and transfer between PC in real-time, without any complicated operation. Plus, it can also scan and detect the data type and let you determine if you want to transfer or delete. How does it work? EaseUS Todo PCTrans Free first connects to the target PC. Then it extracts the data to be transferred, and analyses the items to be backed up. Then it will let you choose the source and the target, transfer direction, app name, destination directory and how much space should it use. From there, it transfers the data to the destination PC. It will also detect the data type and let you decide if you want to transfer or delete. What's more, it also has a Time Reminder function to remind you when the data will be ready, and a real-time update function to automatically check the time and date of both computers. It also provides an icon list to let you know which app is backed up or which backup is ready. EaseUS Todo PCTrans Free is very easy to use, and can save your time and energy on data transfer.
