Interactive .Q: Embedding C# windows forms apps I'm looking to understand how to embed a C# windows form app into another, using the following API (DLL): I'd like to see a sample app out of this. Is this possible? A: If you read the documentation you linked to, you'll see that it can be done using an Infragistics Web Component. I would suggest taking a look at this link also: I have worked with Infragistics for a number of years on web and windows platforms. They generally have good code examples, documentation, and samples for all of their products. A

method to detect the presence of oncoviruses, such as human cytomegalovirus (HCMV), has been described in U.S. Ser. No. 08/606,225, now U.S. Pat. No. 5,746,067, incorporated herein by reference. The method detects the presence of HCMV in a tissue sample by amplifying a first, region of the HCMV genome, detecting the amplification, and comparing the copy number of the first region to a standard. A reduced copy number of the first region compared to the standard indicates a positive result for the presence of HCMV in the tissue sample. U.S. Ser. No. 08/606,225, now U.S. Pat
